

Home Renovation Cost Indicator

2022

Many people contemplating home renovations **underestimate the cost of the works**. This may be due to a lack of knowledge of current construction costs, a false sense of the savings that may be made by being an owner builder or failure to consider necessary repairs or upgrades to the existing home.

This indicator has been prepared by Caulfield Krivanek Architecture with Rodney Vapp and Associates Quantity Surveyors and is a **guide to help prospective renovators estimate the likely cost of intended renovations**.

This guide should be read in conjunction with the **DIY Home Improvement Guide** prepared by CKA Group, available at <https://ckagroup.com.au/resources/>

Note

Shortages of materials, international supply chain problems and labour shortages in an overheated market have resulted in significant cost increases for the start of 2022. The NSW/QLD floods may also place additional stresses on these. Some areas of construction are reporting building cost increases of up to 14%. Whether or not these unusual conditions will ease remains to be seen.

Renovation Calculation Guidelines

Renovation and extension costs can be estimated by the following process:

- Calculate the **structural cost of new construction** on a square metre basis.
- Calculate the fitout cost of **kitchen, bathrooms and laundries** and add these to the structural cost.
- Calculate the cost of **upgrades required to the existing part of the home**. Typically rewiring, re plumbing and new guttering may be required. It is important to know the condition of your home so you can allow for all necessary repairs. Your Architect can assist you with a professional assessment here.
- Calculate the **cost of decks, verandas, garages, carports**, etc.
- Calculate **GST and Professional Fees**

Structural Costs of new construction (per sq.m)

Standard Home	
Typical brick veneer or timber extension.	
Under 30m ²	\$2,260 - \$3,390 / m ²
Over 30m ²	\$1,500 - \$2,260 / m ²
Quality Home	
Timber or brick veneer extension with design feature walls, bay windows.	
Under 30m ²	\$3,010 - \$4,170 / m ²
Over 30m ²	\$2,000 - \$3,026 / m ²
Luxury Home	
Timber or brick veneer extension with high ceilings, quality wall and floor finishes.	
Under 30m ²	\$4,500 - \$5,400 / m ²
Over 30m ²	\$3,250 - \$4,890 / m ²

Fitout costs

Kitchen	
Standard Kitchen	\$12,940 - \$17,800
Quality Kitchen	\$20,000 - \$32,060
Luxury Kitchen	\$29,450 - \$45,860
Bathroom	
Standard Bathroom	\$12,040 - \$20,550
Quality Bathroom	\$18,600 - \$28,960
Luxury Bathroom	\$28,820 - \$45,370
Ensuite	
Standard Ensuite	\$7,650 - \$11,790
Quality Ensuite	\$13,533 - \$19,180
Luxury Ensuite	\$20,310 - \$30,710
Laundry	
Standard - Luxury	\$5,400 - \$20,430
Powder Room	
Standard - Luxury	\$5,900 - \$19,430

Existing House Upgrades 150sq.m to 240sq.m

New Guttering	
\$3,700 - \$5,200	
Rewiring	
\$7,900 - \$11,900	
Re-Plumbing	
\$10,300 - \$20,400	
Re-Roofing	
Concrete tiles	\$11,900 - \$19,300
Terracotta tiles	\$14,300 - \$20,700
Colorbond	\$9,530 - \$14,700
Slate	\$23,000 - \$62,000
External re-Painting	
Poor condition	\$4,900 - \$6,900
Good condition	\$3,500 - \$4,760
Internal re-Painting – per room	
\$1,190 - \$1,630	
Window replacement (2 sq.m window)	
\$780 - \$1,760	
Rising damp repair (seek Homesafe Group advice)	
\$1,860 - \$6,270	
Underpinning cracked brick walls (per m)	
\$1,080 - \$2,140	

Construction Add Ons

Calculate the approximate cost of **carport, garages, verandas**

Carports & Garages	
Single Carport (15m ²)	\$7,530
Double carport (35m ²)	\$16,680
Single garage (15m ²)	\$15,760
Double garage (35m ²)	\$35,090

On a relatively flat site with good soil add the following percentage allowance for external works and services to cover **fencing, paths, driveways, landscaping, drainage and water supply, electrical and gas connections.**

External works and services	
Works up to \$150K	Add 20% - 25%
Works from \$150K to \$500K	Add 15% - 20%
Works over \$500K	Add 10% – 20%

Adjustments will have to be made to the above percentages depending on site conditions such as soil condition, slope of site and accessibility to the work site. Your Architect can help estimate these costs.

GST & Professional Fees

You will need to add 10% GST to your estimate. You may be able to claim some of this back depending on your personal taxation structure and the nature of your renovation. Your accountant or taxation consultant can advise you of this.

You will also need to make an allowance for **architects, structural engineers and possibly other design consultants fees**. New building works may require **planning and building permits**, as well as **council approvals**, and in some cases **zoning approval**. Speak with your Council, as they should be able to provide you with estimates of costs, as well as expected approval time frames. These would typically be a total of 15% to 20% of the construction cost, and generally need to be paid in the early stages of the project.

Regional Differences

Construction prices vary from city to city and are generally more expensive in rural areas. Using Sydney construction prices as a base, capital city adjustments are approximately as follows:

- Melbourne -1%
- Brisbane +4%
- Adelaide 0%
- Perth +5%
- Hobart 0%
- Rural areas +5% to 15% depending on distance from major cities

Total Cost Structure

The approximate cost structure of new homes and renovations is as follows:

- Materials 40%
- Labour 30%
- GST, taxes, fees, permits 20%
- Builders profit margin 10%

Owner Builders

For people considering being owner builders, savings may be made in labour costs and builders' profit margin, although plumbing and electrical work must always be done by licensed contractors.

Owner builders may not obtain the same trade discounts as builders, so a premium of 5% to 10% on materials may apply.

Home Safety

CKA Group is committed to making all Australian homes safer by design. Refer to the Home Improvement Checklist at www.ckagroup.com.au. The items listed in the Home Safety Design part of this checklist will **add little to no cost to your home improvement project, but they will make your home far safer** for your family, visitors, tradespeople and future owners of your home.

A successful home improvement or renovation should provide owners with **a tax-free capital investment over time, as well as an appealing, safe, energy efficient and functional home to be enjoyed for many years**. If you are considering renovating your home, contact the team at [CKA Group](http://www.ckagroup.com.au) to discuss your project.
